

Who We Are & What We Offer

Emmanuel's Foundation offers support, friendships and navigational guidance to complex systems for families who are experiencing a high risk pregnancy or families with an infant having a rare or difficult medical diagnosis.

Helping parents find resources and entry points for services that meet needs in a timely manner.

Building stronger communities by striving together to support families through critical issues, companion parents in their emotional journey and encouraging parents to be their child's best advocate.

Cornerstone Communities

Cornerstone Communities™ of EF are comprised of EF Staff, Volunteers, Professionals and Affiliates offering support services to parents experiencing difficult diagnosis for their unborn or infant child. **Emmanuel's Foundation** is a registered entity in the state of Georgia and under application for non-profit status as a 501c3 organization.

Our vision is to increase access and utilization of appropriate coordinated care for our nation's tiniest and most vulnerable citizens and their family support systems.

Concerned For Your Child?

Emmanuel's Foundation is a resource for parents who have received a difficult diagnosis for their unborn or infant child. Communities of people who have encountered similar issues offer themselves as a resource and friend who understands the complicated issues and emotions a difficult diagnosis brings to the family undergoing this type of stress and helps families navigate appropriate systems of support.

Emmanuel's Foundation is an intermediary agency helping families across the United States tap into support resources that meet basic emotional, spiritual, financial & medical needs in a timely manner and within geographical concentric circles to each family's location.

Emmanuel's Foundation helps families to identify needs and provides a broad overview of services. EF is structured to help parents obtain entry into existing support networks and raise awareness.

Finding out your child may have special needs or a life threatening illness can be overwhelming. Emmanuel's Foundation finds ways to best support the family in finding answers to sensitive questions that are sometimes difficult to comprehend, ask, think through, cope with or endure.

Allow EF to Help

Contact us at Emmanuel's Foundation (EF) by phone or e-mail to schedule an introduction of support services for your particular situation.

Our goal is to companion parents as they get better acquainted with resources available in their community for their particular situation and help parents discuss a plan of care that can be communicated effectively with proper agencies, medical staff or resources.

Parents are carefully guided through the maze of questions that aid in fact-finding, discussion and strategies for communicating a clear "plan-of-care" or birth plan that meets the medical situation and families belief system. Support Systems do exist and EF can help find them.

At Emmanuel's Foundation, we believe all citizens should be allowed access to social services, social justice and the right to life, liberty and the pursuit of happiness. Every parent should be supported in sustaining basic rights for their child. Allow EF to help.

We hope to companion you on your journey and be your friend, supporting your need to find appropriate resources.

You are Not Alone!

The Gift of Support

Emmanuel's Foundation offers the gift of family support across multiple distribution channels.

When was the last time you gave a gift that changed a life?

Consider a gift to support Emmanuel's Foundation - either for yourself or in someone else's honor or memory. **Supporting EF as a volunteer, affiliate, courtesy referral, sponsor or a financial contributor can make a huge difference in someone's life!**

By recognizing life has qualified most all of us through our personal experiences, we understand what works for us (and what did not) so that we may be able to understand more deeply with those who experience similar situations ... Imagine those challenged to give-up or lose hope due to a rare, difficult or fatal diagnosis of their newborn. Imagine the impact to the family (mom, dad, brothers, sisters and extended family) undergoing these stressors. Help to minimize the negative impact of grief, frustration, isolation and lack of support.

Help families feel the gift of your support or call us at EF and ask how you can help.
